Free life time warranty  
Price On Request

The SHE ADORNS - Heptagon collection is big, bold and beautiful. Sharp lines and strong angles create the geometric frame. This juxtaposes against a woman's soft feminine curves to make a "stand up & be counted" design. All Heptagon design features the She Adorns signature diamond bale with a radiating satin finish that move and catch the light at all angles.

They are true show-stoppers with the fine clean lines and negative space of the frame mean there's nothing frilly or froufrou about them.

## Movement - Life - Edgy - Avant-Garde Look

A strong symmetrical shape draws the eye into this collection of 18K yellow gold kite shape and v-shape earrings and necklaces.

The clean and simple lines make it wearable at any event while the diamonds and movement make them unmissable. And the brilliant white sparkle of diamonds against the soft pearlescence of the mother-of-pearl, featuring an original triple cut out pattern.

All earrings and pendant dangle from the signature satin finish bale.

Total 0.33 carat hand-selected round pink sapphires

SHE ADORNS - is a fine jewellery collection produced in-house by Irish Jewellery Designer and Gemologist (GIA) - Emma Gregory. Our Atelier & Design house is in Bangkok, Thailand. It's a long way from Skerries, Co. Dublin but Thailand has a long history of producing fine jewellery and a culture of skilled artisanship in this industry. Our location allows us to have master goldsmiths and setters as part of our team and to access the greatest selection of diamonds and coloured gemstones.

The SHE ADORNS collection was a natural progression after Emma's years of collaboration with some of the world's best jewellery designers to produce their fine jewellery. We've produced jewellery which has ended up on red carpets and meet the most exacting standards of high-end jewellery companies around the world.
